

## SEBHSA BD-3811.OR

**Engine: Diesel engine  
225 kW**

**Max. nominal output  
85 m<sup>3</sup>/h**

**Maximum pressure  
110 bar**

**Pump cylinders  
200 Ø x 1400 mm**

**Dimensions  
W 1900 x L 5580 x H 2440**

**Fully  
Customisable**

The ultimate choice for high pressure requirements, the SEBHSA BD-3811.OR shakes the surroundings with power:

- Designed to work specially with high pressures projects, it combines a reinforced concrete delivery system with a task-oriented hydraulic set up.
- Intended to offer long distance conveyance capabilities for those job sites where direct access is limited, while simultaneously providing the powerful outputs and flexibility desired for an efficient execution.
- The high pressure concept can be adapted to satisfy the most complex and demanding standards.
- Equipped and accessorised to the individual needs and demands of each client.
